Runestick of the Lacerials

This item is only usable by mages. The stick is carved with various runes. When concentrated upon, it allows a mage to cast the spells inscribed upon it. If the mage also has the Runestick proficiency, it may be used just as a spell fetish. The runestick proficiency requires one proficiency slot, based upon intelligence. This proficiency can only be taught by Bengoukee, Taronee (witch doctor of the Koshiva), or by Trueblood, mage of the lacerials. A mage with or without the runestick proficiency can use it as one-time spells, but the spell is then gone forever: *spectral forces*, *blur*, (*Melf's*) *minute meteors*, *wall of stone*.

This was given to you by Laytik of the lacerials.
